Hi Sue,

Can you send this to The Nevada Assembly on my behalf. Rockie sent an email to the recipients of the Nevada Assembly, from his personal email on March 29th with the Subject:

**"This is a meeting for the people to determine the assembly going forward update"**. In light of the accusations made, I would appreciate this being shared to correct the record and present the truth.

Thank you.

Kathi

Dear Rockie,

I'd like to respectfully address the statements you recently made regarding my involvement in sharing screenshots from a meeting.

To clarify, the screenshots I captured were of unedited, factual comments made by you during a public meeting. These remarks were directed toward our State Coordinator and Marshal at Arms in a way that I felt was unkind and inappropriate for such a setting. In my view, speaking negatively about a fellow ASN in this public format does not reflect well on the character and unity we strive to maintain within the Assembly.

My intent in capturing and sharing these screenshots was not to label you as an unfit leader, nor to harm your reputation. Rather, I hoped to bring this behavior to the attention of those who could address the matter constructively and appropriately, for the good of the body politic. At no time did I alter or misrepresent your words, nor did I accuse you of being unfit.

It's important to me that my actions be correctly understood, and that my name not be associated with accusations or intentions that do not reflect the truth. I remain committed to upholding the integrity and unity of our Assembly and hope we can move forward in clarity and mutual respect.

Sincerely,  
Kathi Kridler
