

Anna,

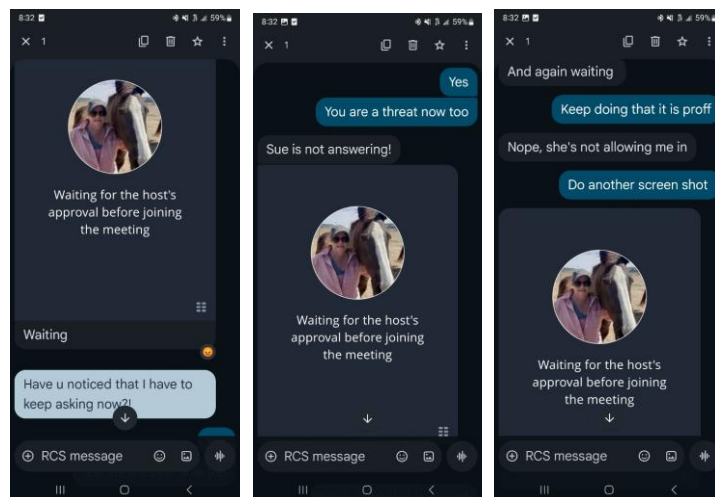

Hope today is finding you awesomely. Ever since Sue was put in timeout, she has let Michael Wilson run things on Nevada and the people are past exasperation. These attacks on their assembly and the people trying to build it up are fed up! If you would like to reset Nevada, the people are all in on that as an option and would without a doubt welcome it because of this continued assault on our assembly.

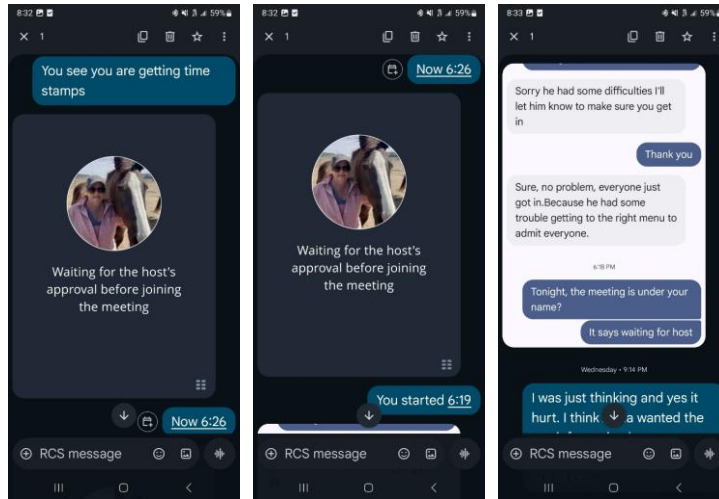

The people are not going to stand around and let this happen. We are getting so close to everything in this world changing and we all need to stand up and take our state back from these people that continue to attempt breaking us apart and the de-facto. With that said, Tamara is now a Co-Coordinator in Nevada and she is going to step up and let the people have their say in what the assembly wants to do.

We will be having a vote this Saturday to stop Micheal Wilson and remove him as a Militia Commander for the state. After so many attempts to try to work with Michael Wilson, the people are fed up with him stepping out of his militia commander position. He is now attacking the recording secretaries and our LRO. Which we have spoken to you about also and have gotten your approval.

Tamara is also going to start taking over the General and Business Assembly meetings to help get Nevada up to where it needs to be. Please let us all know in Nevada where you stand with the people in Nevada and how to deal with Sue and Micheal dictating what Nevada is going to do.

I will give you another example of what has gone on since Sue has come back from her timeout. Tamara has always been a part of Sue's meetings. Every time Tamara sends a text to Sue, Sue would always text back and she still has not responded to Tamara's question of letting her into the meeting. They always ask for people to step up and as they do step up, they always get shut down afterwards. This is not a coincidence anymore, this is now a pattern! As you know Tamara stepped up and with your blessing as a co-coordinator for Nevada state. Look through the evidence on how they are blocking Tamara and the rest of the Nevada people from being able to attend the meetings so they can control the Nevada Assembly.

Tamara has never been able to get into the meeting and gave up after trying 4 times and waiting for many minutes in the “waiting room”. A lot of people have done the same thing, just gave up, but now with Tamara being a Co-Coordinator, she can let the people speak up and let them have their assembly back. I will step up and help Tamara in any way she will need me in this process.

I hope the people in Nevada have your support in building Nevada the way it should be. We are pleading for your help Anna.

Ps: also I have attached the latest email from Micheal to me on the recording secretaries and LRO.

Sincerely,

Rockie Roper
